Open to Remote, Hybrid, and Onsite Opportunities

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building production-ready web applications using the MERN stack, Next.js, TypeScript, and PostgreSQL. Contributed to Digital Palika, Nepal's only government ERP system, and delivered frontend and backend features across EV mobility, tourism, and e-commerce platforms. Registered Computer Engineer (Nepal Engineering Council) with a strong grounding in REST API design, authentication, and database integration, seeking a Software Engineer or Full Stack Developer role on a product or engineering team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Socket.io, WebSockets

Databases: MongoDB, Mongoose, PostgreSQL, Schema Design, CRUD Operations

Tools & Platforms: Git, GitHub, Postman, VS Code, MongoDB Atlas, Figma

Deployment: Vercel, Render, Netlify

Concepts: MVC Architecture, RBAC, OOP, Data Structures, DBMS, SDLC, Agile, CI/CD

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern

Mindrivers Technology | Kathmandu, Nepal | Nov 2025 – Apr 2026

- Developed and maintained production-ready frontend features for Gantabya, an EV mobility platform, using React.js, Next.js, and Tailwind CSS.
- Engineered responsive, reusable UI components, improving cross-device compatibility across mobile and desktop viewports.
- Integrated REST APIs and implemented dynamic data rendering for real-time content updates and a seamless user experience.
- Contributed to backend integration using Node.js, Express.js, and MongoDB Atlas.
- Collaborated via Git/GitHub in agile sprint workflows with a cross-functional development team.

PROJECTS

Digital Palika — Government ERP System

Technology Stack: React.js, Next.js, TypeScript, Tailwind CSS, REST API, Git

Completed during MERN Stack Developer Internship at Mindrivers Technology

- Contributed to Nepal's only government ERP platform, used by local governments for financial, strategic, and operational decision-making.
- Developed and maintained frontend modules including dashboards, data forms, and reporting views with a focus on performance and usability.
- Collaborated with a team to integrate REST APIs and ensure accurate rendering of government financial data across user roles.

Live: digitalpalika.org | **Demo:** demo.digitalpalika.org

HeavenCraft — E-Commerce Platform

Technology Stack: MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Tailwind CSS, JWT, Stripe

- Architected a production-deployed MERN e-commerce platform with multi-step checkout and Stripe-ready payment integration.
- Implemented Redux Toolkit Query for global state management, eliminating redundant API calls across 10+ components.

Live: mern-frontened.vercel.app

Gantabya — EV Mobility Web Platform

Technology Stack: React.js, Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, REST API, Git

- Delivered production-ready frontend for a Nepal-based EV startup using Next.js server-side rendering and optimized routing.
- Built a modular component library with Tailwind CSS, ensuring design consistency across 10+ pages.
- Integrated REST APIs and optimized data rendering pipelines, reducing redundant re-renders and improving perceived performance.

Live: gantabya-mobility.vercel.app

Glocal Village — Trekking & Travel Platform (Freelance)

Technology Stack: Next.js, TypeScript, Firebase (Firestore), Cloudinary

- Independently built a full-stack trekking and travel platform for a freelance client, covering both the public-facing site and a custom admin CMS.
- Used Firestore as the primary database and Cloudinary for media management, powering a travel journal/blog and tour itinerary listings.
- Owned the project end-to-end as a solo full-stack developer and delivered the complete codebase to the client.

Status: Delivered to client — codebase complete; public deployment pending on the client's end.

EDUCATION

Bachelor of Engineering — Computer Science

Bangalore Technological Institute (VTU) | Bangalore, India

Higher Secondary Level (+2) — Science

Greenland College | Biratnagar, Nepal

CERTIFICATIONS & PROFESSIONAL CREDENTIALS

Registered Computer Engineer

Nepal Engineering Council (NEC)

Certified MERN Stack Developer

Mindrisers Institute of Technology

Credential Verification: mindrisers.com.np/certificate/validate/MR-82030-MS
